

Nicholas Rapoza

Massachusetts • Nick_Rapoza@uri.edu • [LinkedIn](#) • [Portfolio](#)

EDUCATION

University of Rhode Island, Kingston, RI

Bachelor of Science in Computer Science

May 2026

Professional Science Masters in Cybersecurity

May 2027

GPA: 3.86/4.00 • Summa Cum Laude • Presidential Scholarship

RELEVANT COURSEWORK

Data Structures and Algorithms, Software Engineering, Network and Systems Security, Digital Forensics, Combinatorics, Computer Organization

TECHNICAL SKILLS

Python, C, C++, JavaScript, SQL, Linux, Bash/Shell Scripting, Git, GitHub, AWS, Docker, CI/CD Concepts, REST APIs, Wireshark, Nmap, Kali Linux, Selenium, Grafana, Data Processing, Network Security Fundamentals

PROJECTS

Sports Data Web Scraper and Analysis

2025-2026

- Built a Python web scraping pipeline that automated data collection from multiple sports sources, enabling scalable generation of structured datasets.
- Developed an educational predictive model using player and game statistics, achieving 83.3% accuracy across 600+ evaluated games.

Website Monitoring & Automation System

2025

- Developed an automated monitoring system that validated full application workflows beyond uptime, by simulating real user interactions with Selenium to detect functional failures in critical services.
- Integrated Prometheus and Grafana dashboards for real-time system performance tracking and visualization.

Group Calendar App ([Github](#))

2024

- Developed a full-stack collaborative scheduling application enabling real-time coordination between users.
- Implemented with Firebase for authentication, real-time data management, and cloud functions.
- Designed UI prototypes in Figma and built the front-end using Flutter Flow and Dart.

UEFN Map Creation

2024

- Designed and deployed a multiplayer game experience using Epic Games' Unreal Engine and Verse scripting.
- Launched and promoted the game, resulting in over 92,000+ players.

Data Analysis & Optimization System

2023

- Built a high-performance command-line data processing system for structured dataset analysis using optimized algorithms and data structures, improving computational efficiency for large-scale inputs.

WORK EXPERIENCE

URI Information Technology Services, Kingstown, RI

2025

- Contributed to automation and diagnostic workflows to support real-time monitoring and validation of university web services, improving reliability of critical systems.
- Applied cloud monitoring and automation techniques using Python and Selenium to replicate user interactions for service stability testing.

Blackswan Country Club, Georgetown, MA

2020 - 2025

- Operated across multiple functional roles in a fast-paced service environment, supporting daily operations and customer experience.
- Strengthened communication, teamwork, and problem-solving skills while working directly with staff and customers.

LEADERSHIP

Phi Kappa Psi Rhode Island Beta

2022-2026

- Active member involved in multiple committees including Philanthropy, Scholarship, and Housing.

Order of Omega, University of Rhode Island, Kingston, RI

2024

- Honors Society for leadership in Greek Life and campus engagement.
