

Nicholas Rapoza

Massachusetts • Nick_rapoza@uri.edu • [LinkedIn](#) • [Portfolio](#)

EDUCATION

University of Rhode Island, Kingston, RI

Bachelor of Science in Computer Science

May 2026

Professional Science Masters in Cybersecurity

May 2027

GPA: 3.86/4.00 • Summa Cum Laude • Dean's List • Presidential Scholarship

RELEVANT COURSEWORK

Data Structures and Algorithms, Software Engineering, Network and Systems Security, Digital Forensics, Combinatorics, Computer Organization

TECHNICAL SKILLS

Python, C, C++, JavaScript, SQL, Linux, Bash/Shell Scripting, Git, GitHub, AWS, Docker, CI/CD Concepts, REST APIs, Wireshark, Nmap, Kali Linux, Selenium, Grafana, Data Processing, Network Security Fundamentals

PROJECTS

Sports Data Web Scraper and Analysis

2025-2026

- Developed a Python web scraper to collect sports data from multiple different open sources.
- Designed and implemented algorithms to match statistics, player performance, and game outcomes.

Website Automation & Automation System

2025

- Developed a scalable Python-based monitoring system to validate website functionality beyond uptime.
- Automated browser interactions using Selenium to simulate real user behavior and detect failures.
- Integrated metrics and visualized system performance using Grafana dashboards.

Group Calendar App - [Github Repo](#)

2024

- Worked on a team to develop a full-stack group calendar app to view and compare availability with friends.
- Implemented with Firebase for real-time data management, authentication, and cloud functions.
- Designed user interfaces and prototypes in Figma and built the front-end using Flutter Flow and Dart, focusing on usability and user experience.

UEFN Map Creation

2024

- Developed a custom gaming experience using Epic Games' Unreal Engine.
- Learned and utilized Verse programming to customize gameplay and features.
- Launched and promoted the game, resulting in over 92,000 total players.

Data Analysis & Optimization System

2023

- Developed a command-line tool to process and analyze structured datasets from multiple sources.
- Segment Trees and graph algorithms (Prim's), with additional sorting techniques for efficient data processing.

WORK EXPERIENCE

URI Information Technology Services, Kingstown, RI

2025

- Contributed to platform infrastructure by building automated tools for real-time web services.
- Supported site reliability and uptime assurance by integrating scripts for system-level diagnostics, ensuring critical applications remain accessible.
- Applied principles of cloud-based monitoring and automation using Python and Selenium to replicate user actions and verify web functionality.

Blackswan Country Club, Georgetown, MA

2020 - 2025

- Worked across multiple roles including cart barn maintenance, ranger/starter, and pro shop sales.
- Developed strong teamwork, communication and problem-solving skills while working with staff and customers.

LEADERSHIP

Phi Kappa Psi Rhode Island Beta

2022-2026

- Active member involved in multiple committees including Philanthropy, Scholarship, and Housing.

Order of Omega, University of Rhode Island, Kingston, RI

2024

- Honors Society for leadership in Greek Life.
